

Dr. BRIONY SWIRE-THOMPSON
 Senior Research Scientist
Director of the Psychology of Misinformation Lab
 Network Science Institute; Northeastern University
 177 Huntington Avenue, Boston, MA 02115, United States

Citizenship: Australian / British
Email: b.swire-thompson@northeastern.edu
CV updated: 3/11/2022

Research Interests

My program of research is focused on the correction of misinformation. I examine what drives belief in inaccurate information, why certain individuals are predisposed to refrain from belief change even in the face of good corrective evidence, and how corrections can be designed to maximize impact.

Education and Training

Ph.D. in Psychological Science, University of Western Australia Cognitive Science Laboratories Dissertation title: The Role of Memory and Ideological Biases in the Correction of Misinformation Supervisors: Associate Professor Ullrich Ecker, Professor Stephan Lewandowsky	Feb 2013 - Dec 2017
Honours ¹ in Psychological Science, University of Western Australia Cognitive Science Laboratories Thesis: Misinformation in Memory: Strength of Encoding and Retracting Information Supervisors: Professor Stephan Lewandowsky, Associate Professor Ullrich Ecker	Feb 2009 - Dec 2009
Bachelor of Arts, University of Western Australia Double major in Psychological Science, single major in English Literature	Feb 2003 - Dec 2005

Positions and appointments (academic related only)

Senior Research Scientist Northeastern University, Network Science Institute, Boston Other appointment: Harvard Institute for Quantitative Social Sciences, Cambridge	Jul 2020–present
Associate Research Scientist Northeastern University, Network Science Institute, Boston Other appointment: Harvard Institute for Quantitative Social Sciences, Cambridge	Aug 2019–Jul 2020
Postdoctoral fellow Northeastern University, Network Science Institute, Boston Other appointment: Harvard Institute for Quantitative Social Sciences, Cambridge Supervisor: Professor David Lazer	Aug 2017- Aug 2019

Honors and Awards

Dean's List Honourable Mention—Recognition of an Outstanding Thesis Project: The role of memory and ideological biases in the correction of misinformation From: University of Western Australia	2017
--	------

¹ In Australia, honours is a one year course with a substantial research component. It is completed after a bachelor's degree and is a prerequisite for postgraduate studies.

Fulbright Scholarship to Massachusetts Institute of Technology From: Fulbright Australia Host supervisor: Professor Adam Berinsky, Political Experiments Research Laboratory	2015 - 2016
Study Abroad Scholarship to the University of Bristol From: The University of Western Australia	2004 - 2005

Competitive Funding Awarded

Pathway to Independence: K99/R00 Role: PI Project: Cancer misinformation on social media and its correction Funder: National Institute of Health: National Cancer Institute Amount: \$1,056,885	2021-2026
Volkswagen Foundation Award Role: Co-PI (PIs: Ralph Hertwig, Stephan Lewandowsky, Tina Eliassi-Rad, Stefan Herzog, & Awais Rashid). Project: Controlling the Jekyll and Hyde of Artificial-Intelligence Assisted Information Architectures: Accepting Customization while Resisting micro-targeted Manipulation. Funder: Volkswagen Foundation Amount: \$400,000	2019-2023
NULab Seedling Grant Role: PI Project: Backfire effects after the correction of misinformation Funder: NULab for Texts, Maps, and Networks Amount: \$1,100	2019

NULab Seedling Grant Role: PI Project: The prevalence of backfire effects after the correction of misinformation NULab for Texts, Maps, and Networks Amount: \$2,000	2018
Gregory Schwartz Fulbright Enrichment Travel Grant Project: To present “Processing political misinformation” at a conference. Funder: Australian-American Fulbright Association Amount: \$1,200	2016
Fulbright Postgraduate Scholarship Project: The correction of misinformation Funder: Australian-American Fulbright Association Amount: \$30,000	2015-2016
Study Abroad Undergraduate Scholarship Funder: University of Western Australia Amount: \$2,500	2004-2005

Teaching

- Coordinating Graduate Research Instructor for Cognitive Psychology Feb - Jun 2015
 University: The University of Western Australia
 Responsibilities: I helped the unit coordinator, Dr. Ullrich Ecker, run the Cognitive Psychology unit of 550 students. I taught 10 graduate student instructors what content to teach and how to conduct activities for the laboratories. I assisted with the creation of laboratory content, managed the course website, and prepared individualized content for students with special needs.
- Graduate Student Instructor for Cognitive Psychology Feb - Jun 2013, Feb - Jun 2015
 University: The University of Western Australia
 Responsibilities: My role involved teaching laboratories of up to 40 students and marking assignments and exams. This second and third-year undergraduate course covered attention, executive functioning, principles and dissociations of human memory, information updating, problem solving and reasoning, judgement and decision making, applied cognition including forensic analysis, eyewitness testimony, and human error.
- Sessional Academic for Introduction to Psychology Feb - Jun 2013, Feb - Jun 2014
 University: Curtin University
 Responsibilities: My role involved teaching laboratories of up to 40 students and marking assignments, oral presentations, and exams. This first-year undergraduate course was an introduction to social psychology, personality, development, learning, memory, motivation, and the methodological issues related to psychology.
- Graduate Student Instructor for Research Methods: Design and Analysis Feb – Jun 2014
 University: The University of Western Australia
 Responsibilities: My role involved teaching laboratories of up to 40 students, demonstrating SPSS, and marking assignments and exams. This third-year undergraduate course covered performing and interpreting statistical analyses. The laboratories involved analyzing sets of data, writing reports of analyses, and evaluating research design.
- Sessional Academic for Brain and Behavior Jun – Nov 2013
 University: Curtin University
 Responsibilities: My role involved teaching laboratories of up to 40 students and marking assignments and exams. This first-year undergraduate course covered the structural and functional organization of the central nervous system, and the interrelationships between physiological functioning and behavior.

Service

- Speaker Series Organizer (with Matthew Baum) 2022-2033
 Title: Combatting Misinformation Speaker Series
 Hosts: Harvard and Northeastern University
- Special Issue Journal Editor (with Sander van der Linden and Jon Roozenbeek) 2022
 Journal: *Applied Cognitive Psychology*
 Title: The Truth is Out There: The Psychology of Conspiracy Theories and How to Counter Them
- Dissertation Committee 2021
 PhD candidate: Sacha Altay
 University: Paris Sciences et Lettres University
 Dissertation title: Understanding misinformation and fighting for information

Advisory Committee for Fact-checking Organizations Fact-checkers: Full Fact, Chequeado, Africa Check Responsibilities: Providing recommendations and oversee the quality of research with regards to study design, methods, and analyses. Giving feedback on reports and publications.	2019-2020
Grant reviewer Agence Nationale de la Recherche (National Agency of Research: France)	2020
Book proposal reviewer Cambridge University Press	2020
<i>Ad Hoc</i> Journal Reviewer Nature Human Behaviour; Science Advances; Proceedings of the National Academy of Sciences; Journal of Experimental Psychology: General; Journal of Applied Research in Memory and Cognition; Cognitive Research: Principles and Implications; Journal of Experimental Psychology: Learning, Memory and Cognition; American Journal of Public Health; Cognition; Journal of Experimental Psychology: Applied; Political Communication; Political Psychology.
